

WATCH OUT FOR JELLYFISH!

Max found 25 jellyfish on the sand at the beach.

Jess found 8 more.

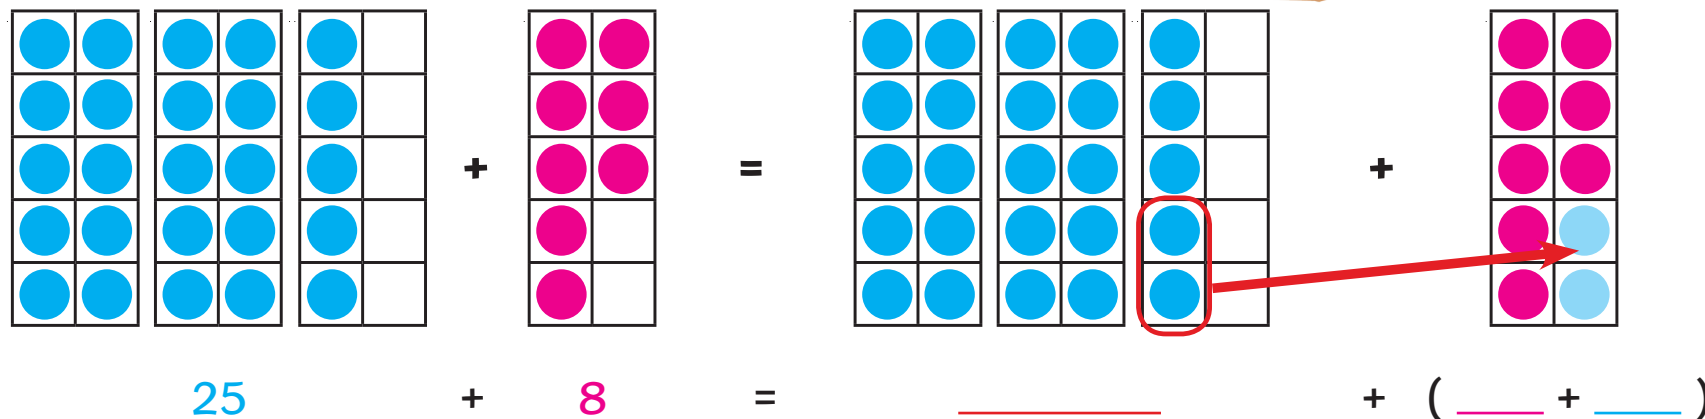

How many jellyfish did they find?

Finish Max's explanation.

8 is very close to ten.
I know $8 + 2 = 10$.
So I'll take 2 from ...

$$25 + 8 =$$

$$= 23 + \underline{\hspace{1cm}}$$

$$= \underline{\hspace{2cm}}$$

So $25 + 8 = \underline{\hspace{2cm}}$ jellyfish
