

4 GINGERBREAD HOUSES

There are 10 gumdrops on each side of the roof, so that makes 20 altogether.

Fill in the table to show how many of each part will be needed to build more houses like these.

Part of house	1 house	2 houses	4 houses	5 houses	10 houses	The rule is:
Biscuit Door			4			Add 1
Candy cane frame			8			
Window panes			32			
Swirly lollipops			24			
Gumdrops on roof	20		80
