

2 HOW CAN I MEASURE THIS?

- 1 In **each** column write down some activities that you would measure using these units of time.
Try to find an example for each square.
Compare your ideas with someone else.
- 2 For each column:
 - a Write which activity would take the **longest** time?
 - b Write which activity would take the **shortest** time?

Minutes	Hours	Days	Weeks	Months	Years
				growing a sunflower	

Longest time

Shortest time
