

3 Game

### Strike a pose

- 1 The person who can stand on their left foot, with their eyes shut, for the longest time is the leader.
- 2 Everyone stands up.
- 3 The leader stands **facing the class** and strikes a pose.
- 4 The class stand behind the leader and adopt the same pose.
- 5 The teacher or the leader calls out one of these instructions:

**Rotate** (turn)      clockwise  $\frac{1}{4}$  turn      anticlockwise  $\frac{1}{4}$  turn

clockwise  $\frac{1}{2}$  turn      anticlockwise  $\frac{1}{2}$  turn

**Translate** (slide)      left / right      forward / backward

**Reflect** (flip)

- 6 All the students except the leader follow the instructions.
- 7 Any student who makes an **incorrect** pose and the **last** person to achieve the pose sits to the side and watches until the next pose is shown.
- 8 Repeat **steps 5 to 7 twice** with the **same** pose changing the transformation instruction.

#### Example

The first instruction might be  
a **clockwise half turn**,  
the next a **slide to the left**,  
and the third a **flip**.

This 'slideshow' depicts the first figure  
and each of these transformations.
