

HOW MUCH?

Tane paid **\$25** for a surfboard lesson and **\$18** to paddle a canoe around Draco's lagoon.
 Tane showed Mihi how he worked out what he needed to pay.
 Finish his explanation.

$$\text{\$25} + \text{\$18} =$$

Tane

I started with \$25.

\$25

+

\$10

=

\$?

\$35

+

\$5

=

\$?

Then another \$5 would make \$?.
 ... I would still have \$? to pay.

$$\text{\$25} + \text{\$10} = \underline{\hspace{2cm}}$$

$$\text{\$35} + \underline{\hspace{2cm}} = \$ \underline{\hspace{2cm}}$$

$$\text{\$40} + \underline{\hspace{2cm}} = \$ \underline{\hspace{2cm}}$$

Altogether I needed to
 pay \$.
