

2 TOTALLY AWESOME!

• 0-9 die

- 1 Add to find all the totals across each row and down each column on the number grid.

Example

6	+	3	=	9
7	+	5	=	12
13	+	8	=	21

a

5	7	
3	2	

b

8	7	
4	5	

c

6	8	
7	4	

d

9	8	
4	8	

- 2 Roll a die four times and write the digit for each roll in the **shaded** square of these grids.

- Add the totals.
- Compare your totals with a partner's.
- Whose grid has the biggest total?
- Whose grid has the lowest?

3 Challenge

Can you make a square where the last row and column add to the **same total**?
