

1 Game

- hula hoops or chalk circles

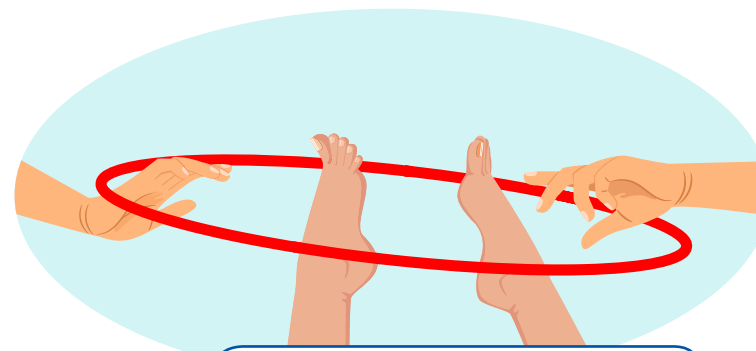

We've got it!

Whole class in groups of five.

- 1 The teacher calls out a multiplication fact from the 2s, 5s or 10s tables so that students can model the fact using combinations of hands, feet, fingers and toes within the hoop.

We have 5 hands with
5 fingers on each.
5 groups of 5 is 25.

We have 2 hands with 5 fingers on
each and 2 feet with 5 toes on each.
4 groups of 5 is 20.

- 2 The first team to model the fact and agree on the answer calls out, "We've got it!"
- 3 One member of the team is chosen to explain how the team created the fact to earn 10 points.
- 4 If they also give the correct answer they receive another 10 points.
