

4 BREAK DOWN

1 Make a tower with this number of blocks.

- unifix cubes or similar blocks
- small paper squares

I made 2 small towers of 6 blocks with 12 blocks and filled in the chart like this.

- 2 Write down how many different, smaller towers of equal size you can make with the same number of blocks (and **no left overs**) to fill in the chart.
- 3 Talk with a partner about any patterns you noticed when you were making the towers.
