

WHAT IS THIS?

Say whether each problem should be solved by **addition**, **subtraction**, **multiplication** or **division**.

The diagrams below each problem might help you decide.

Write an equation and find the answer for each problem.

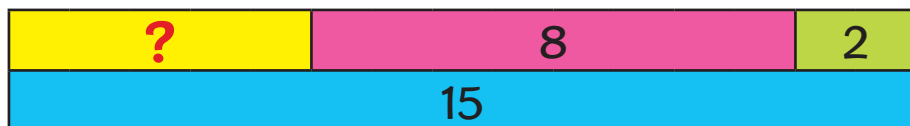

Problem 1

Niko had \$15.

He spent \$8 to hire a towel

and \$2 on an iced drink.

How much money did he have left?

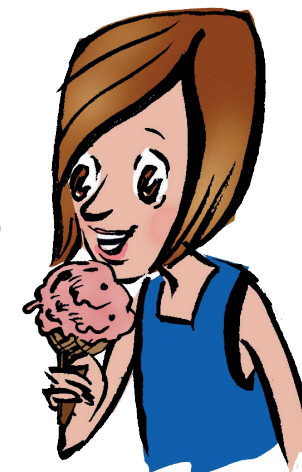

Problem 2

Emmy bought \$5 ice-creams

for herself and 2 friends.

How much money did she pay?

WHAT IS THIS?

Say whether each problem should be solved by **addition**, **subtraction**, **multiplication** or **division**.
The diagrams below each problem might help you decide.
Write an equation and find the answer for each problem.

Problem 3

Charlie's uncle gave his
3 nephews \$15 to share.
How much money did
each nephew get?

Problem 4

Anika bought an ice cream for \$5,
hired a beach towel for \$8 and
then bought an iced
drink for \$2.
How much money did
she pay altogether?
