

3 FILLING THE GAP

- 1 Put the missing signs (+, −, =) into each of these equations to make them true.

You **cannot** move the numbers.

Some examples can be completed in **two** different ways.
Find them both.

1 a 2  1  1

b 2  1  1

2 7  9  16

3 a 11  4  7

b 11  4  7

4 a 12  3  9

b 12  3  9

5 8  6  14

6 a 20  8  12

b 20  8  12

Challenges

- 2 Create an example that can only be solved in **one** way.
- 3 Create an example that can be solved in **two** ways.
