

NOT IN MY FAMILY

Which fact does **not** belong in each of these families?

Write the correct family of facts.

- 1
- a $8 + 5 = 13$
 - b $7 + 6 = 13$
 - c $13 - 8 = 5$
 - d $13 - 5 = 8$

- 2
- a $9 + 7 = 16$
 - b $7 + 9 = 16$
 - c $9 - 16 = 7$
 - d $16 - 7 = 9$

- 3
- a $15 - 4 = 11$
 - b $4 + 15 = 11$
 - c $15 - 11 = 4$
 - d $11 + 4 = 15$

- 4
- a $18 - 13 = 5$
 - b $18 - 5 = 13$
 - c $5 + 13 = 18$
 - d $15 + 3 = 18$

- 5
- a $15 - 7 = 8$
 - b $7 + 8 = 15$
 - c $7 - 15 = 8$
 - d $8 + 7 = 15$

6 Why are there only two facts in this family?

- a $13 + 13 = 26$
- b $26 - 13 = 13$

7 Write four more families that only have two facts.
