

2 SMART STRATEGIES FOR LEARNING FACTS

Think:

- 1 Some rows and columns have been filled in on this chart.
Describe patterns that will make it easier to quickly find the missing answers in each row.
- 2 Why do you think **part** of this grid is shaded?
- 3 How could you use this pattern to make learning the facts easier?
- 4 Look for other patterns in rows or columns that would help you to quickly find the answers to other facts.
