

1 Game

Target

- 1 Take turns to toss the die.
- 2 **Add** or **subtract** the number you toss to your points.
- 3 The first person to get the target of **20** wins.

Example

Jess tossed a 5 first.

5

Then Max tossed a 6.
He **added** that to her 5.

$$5 + 6 = 11$$

Then Anika tossed a 4.
She **added** that to 11.

$$11 + 4 = 15$$

Then Charlie tossed a 6.
He **added** this to 15.

$$15 + 6 = 21$$

Next Jess tossed a 1.
Jess decided to **subtract** 1
from 21 to get 20.
Jess wins!

$$21 - 1 = 20$$

The player who makes the target number first chooses a target between 10 and 20 for the next round.
