Criss-cross

A game for 3 - 6 players.

- 1 Take turns rolling the dice or turning over two cards.
- 2 Everyone makes a **2-digit number** with the dice or cards.
- 3 Quickly:
 - a Write the number somewhere in your grid.
 - b Fill in the rest of your grid, as if it were part of a 'hundreds chart'.
 - c When you have finished your grid **clap your hands once** and **put them on your head**.

25	26	27
35	36	
	46	

- 4 Everybody **stops writing** and passes their grid to the person on their **left** to check.
If the player who finished first has all their numbers **correct**, they **win 10 points**.
If they have made a **mistake**, the other players find the person who has the **most numbers** in the correct squares and they take **5 points**.
- 5 **Play ten games.**
The player with the most points is the winner.

Challenges

- 1 Use three dice or turn over three cards to make a 3-digit number.
- 2 Write the number in the **centre** of your grid.
- 3 Write the number **ten more** and **ten less** along the rows and **one hundred more** or **one hundred less** in the columns.
