1

Choose numbers from Pirate Patsy's treasure chest to make these true.
Try to do each one **five** different ways.

You can use any number as many times as you want.

a $\square + \square + \square = 20$

b $\square + \square + \square = 19$

c $\square + \square - \square = 9$

d $\square - \square + \square = 14$

2 Find the answers to these.

Join the dots in the order of the answers.
