

## 4 BAKING DISASTER

Max spilt juice on the ingredient list of his favourite muffin recipe. Now he can't see how much of each ingredient to use.

- 1 Draw a line from the **ingredient list** to the **unit** or **word** that would make sense in this recipe and help Max work out how much he needs of each ingredient.

teaspoons  
tablespoons  
cups  
millilitres  
grams

| Ingredients:      |                      |
|-------------------|----------------------|
| 2                 | flour                |
| 2                 | of Baking Powder     |
| 150               | sugar                |
| 100               | of oil               |
| 6                 | coconut              |
| $\frac{1}{2}$ tin | of crushed pineapple |
| 1                 | whole egg            |

- 2 Draw a line from **each ingredient** to the **device** needed to **measure** it.

Flour      Baking Powder      Oil      coconut      sugar
