

RAIN GAUGE

Max's class decided to build a rain gauge to measure how much rain fell during two very wet months.

Each week they measured the rain in the gauge and wrote down how much rain had fallen.

Month 1	Rainfall in millimetres
Week 1	20
Week 2	52
Week 3	0
Week 4	86

Month 2	
Week 1	10
Week 2	90
Week 3	85
Week 4	0

- 1 How much rain fell in total during the two months?
- 2 What other questions could you answer using these measurements?
