

3 VISITING THE ZOO

Give directions for walking around the zoo using paths, so that you see **every** animal.

Start and finish at the Zoo sign.

- 1 Write down:
 - a the distance to walk (how many squares?)
 - b the direction to walk (NESW - North, East, South, West)
 - c the direction to turn (left, right, clockwise, anticlockwise)
 - d the name of each animal or landmark you pass
- 2 Which animals did you walk past more than once?
- 3 Swap your directions with a partner and follow their path.

Tick off each instruction after you move.
