

7 Game

- a die
- cards with A to F
- different coloured counters for each player
- game grid

Four in a row

The first player to roll a 4 begins.

- 1 The first player rolls the die and takes a card.
- 2 The first player places their counter in the square with those coordinates.

- 3 Each player takes their turn to roll the dice and place a counter in the correct square.

If there is already a counter on the square a player cannot put a counter down, and the next player rolls the dice.

- 4 The winner is the first player to get **4 counters in a row, column or diagonal.**
