

5 THE NECTAR STATION

Tane created a pictograph to show the number of birds which fed at a nectar station in one week.

Birds feeding at the nectar station

Monday	  
Tuesday	   
Wednesday	    
Thursday	   
Friday	
Saturday	 
Sunday	  
 = 5 Birds	

- How many birds did Tane see on Monday?
- On which day did Tane see the most birds?
How many birds was this?
- The nectar station ran out of sugar mixture one day. Which day do you think this might have been? Explain.
- Half of the birds who drank at the nectar station were tui. How many tui drank from the nectar?
- Write down **two** other things the pictograph tells you.
