

6 KIWI WATCHING

The bush rangers watched some kiwi in the forest for 24 hours and recorded some data.

They drew these graphs to show the activity of the kiwi they saw.

KIWI ACTIVITY

a Use the bar chart to draw a frequency table.

b Draw a different graph for the data.

Example dot plot, strip graph, pictograph

c What questions might the rangers be able to answer from the information they found?

d Write some statements about what the graphs show.
