

WHAT DOES IT SHOW?

Room 5 asked, “How many eggs has each type of native bird laid in the bush behind our school?” They watched the birds closely and graphed their results using the computer.

- 1 Name each type of graph.
- 2 Make statements about what each graph shows.
- 3 Which graph best shows the answer to Room 5's question? Explain.

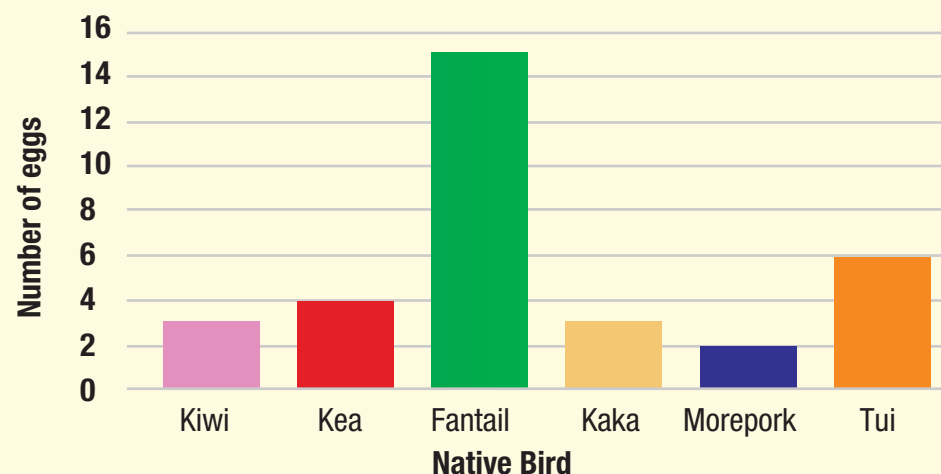

a

Eggs laid by a pair of birds in one season

b

Eggs laid by a pair of birds in one season

c

Eggs laid by a pair of birds in one season
