

2 BEEHIVE

- 1 Add each pair of numbers on the bottom row to find the number above.
Try to reach the top of the beehive.

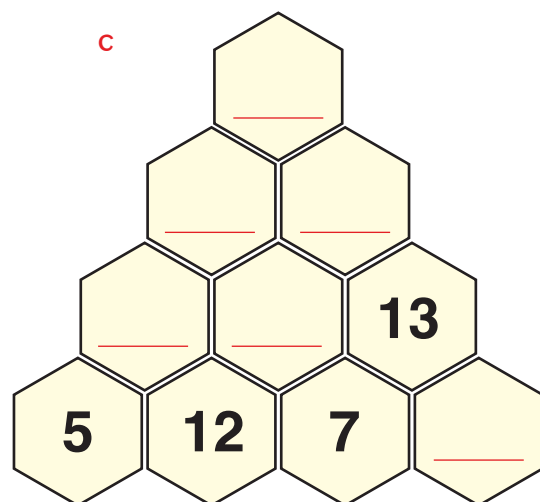

a

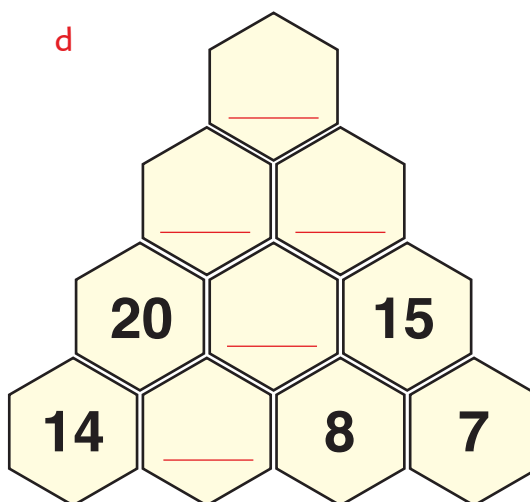

b

c

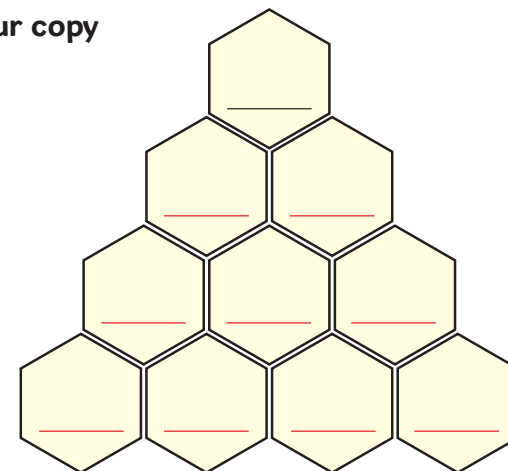

d

- 2 On your partner's copy, put a number **less than 15** on each hexagon in the bottom row to create a number pyramid for a partner to solve.

Solve it first on your copy, so that you can mark their answers.
