

6 GOING FISHING

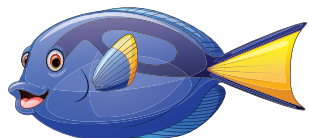

- 1 Add or subtract to find the answers to these equations using place value partitioning.

a $56 + 23 = \underline{\hspace{2cm}}$

b $183 - 22 = \underline{\hspace{2cm}}$

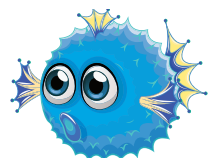

c $363 + 132 = \underline{\hspace{2cm}}$

d $352 + 31 = \underline{\hspace{2cm}}$

e $279 - 54 = \underline{\hspace{2cm}}$

f $78 - 38 = \underline{\hspace{2cm}}$

g $745 + 312 = \underline{\hspace{2cm}}$

h $179 - 156 = \underline{\hspace{2cm}}$

- 2 The answer to each equation is the **length** of the fish in millimetres.
Cut out the fish and glue them in order of size – **shortest to longest**.
