

HOW MUCH WAS SPENT?

Tane's dad spent \$123 on a skateboard for Tane, then \$115 on a present for Tane's mum.

What goes in the gaps in each equation?

Step 1

$$\$123 + \$\underline{\hspace{1cm}} = \$223$$

I started with \$123 then I added the **other hundred**, then the **ten** and finally the **ones**.

Step 2

$$\$_{\underline{\hspace{1cm}}} + \$10 = \$_{\underline{\hspace{1cm}}}$$

Step 3

$$\$_{\underline{\hspace{1cm}}} + \$5 = \$_{\underline{\hspace{1cm}}}$$

$\$123 + \$115 = \$238.$
