

2 JESS'S PLANT ALBUM

Jess took photos of the native plants she saw during a bush walk with her class.

- 1 She took **38** photos of kōwhai plants and **76** of cabbage tree plants.
How many photos is this?
- 2 She took **33** photos of kākābeak plants, but only **15** were flowering.
How many were not flowering?
- 3 Jess took photos of **7** rimu, **8** kahikatea, **14** miro, **6** matai and **3** totara plants.
How many plants was this altogether?
- 4 She photographed **16** kauri trees, but only **5** were over **50m** tall.
How many were less than 50m tall?
- 5 She took photos of **25** harakeke and **96** mānuka plants.
How many plants was this altogether?
- 6 When she got back to class she discovered that **37** of the mānuka plants were actually kānuka plants.
How many mānuka plants did she actually photograph?
- 7 **Challenge**
How many photos of NZ plants did Jess take altogether?
