

4 Game

- 10 cards numbered 0 to 9 for each player
- pen and paper
- a copy of the game board for each player

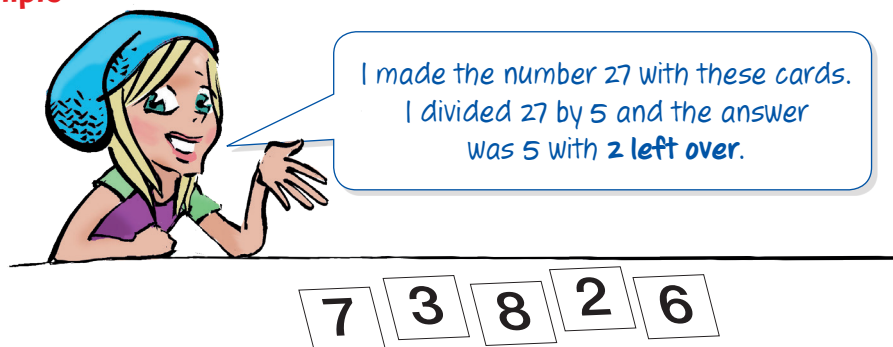

Collect all the left overs

- Each player takes one game board or copies down these numbers.

0 0 1 1 2 3 4 5 6 7 8 9

- The first person to finish writing down all 12 numbers is the leader.
- The leader shuffles all the cards and deals five cards to each player.
- Each player looks at their cards and makes a 2-digit number.
- Divide your 2-digit number by any other number and write down the left overs.

Example

2 7

I crossed off 2 on my game board.

- Check each other's answers.
- If you are correct cross off the number 'left over' on your game board.
- When each player has had a turn, all the cards are returned to the leader who shuffles them and deals out another 5 cards to each player.
- The winner is the person who crosses out all 12 of their numbers first.

0 0 1 1 ~~2~~ 3 4 5 6 7 8 9
