

KOKO'S FLIGHT PLAN

The balloon flew right across the city at the **same height**.

The height of the balloon's basket is shown by the **red** dotted line.

Koko flew close to the roofline of the city.

Koko's height is shown by the **purple** dotted line.

Use **greater than**, **less than** and **equal to**, compare Koko's flight path with the balloon's. What might Jess say next?

Koko was flying at a height **less than** the balloon across the top of the Library.
Then at the hotel he was flying ...
