

● **Koko**

Koko, the white heron, lives by Okarito Lagoon.

He looks after many nests.

Koko wants to move the sticks between the nests so that the number of sticks in each nest is a tens number.

How could he do this?

nest 1

12 sticks

nest 2

27 sticks

nest 3

228 sticks

nest 4

18 sticks

nest 5

33 sticks

nest 6

122 sticks
