

Eggs, eggs, eggs!

Discuss how you would solve each of these.
Write an equation for each.

a Tui at the sanctuary laid 24 eggs.
6 fell out of the nests and
8 didn't hatch.
How many eggs hatched?

b One pukeko nest
had 16 eggs in it.
Another had 8 eggs.
How many eggs is
this altogether?

c Flossy fantail's family laid 24 eggs.
Flora fantail's family laid 17 eggs.
How many eggs is this altogether?

d The kiwi at the sanctuary laid 56 eggs last year.
27 didn't hatch.
How many hatched?
