

3 Game

Random rattle

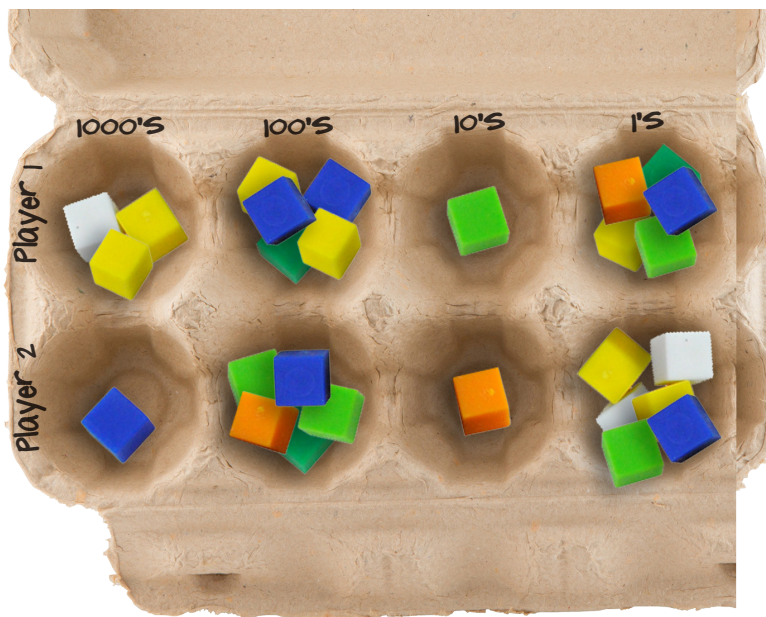

- 1 Each player **shakes the carton**.
- 2 When the carton is opened, each player writes down the number created in their row, in **expanded** and **compact** form.

Example

In this photo:

Player 1 $3000 + 500 + 10 + 5 = 3515$

Player 2 $1000 + 500 + 10 + 6 = 1516$

- 3 The player with the biggest number wins 200 points and shakes first for the next round.
- 4 The winner is the player with the most points after 10 rounds.
