

Chapter 15 – Activity 1 – Question 1

Page 254

- 1 Finish drawing the red shape on the right so that it is the same as the shape on the left.

The grid contains the following shapes:

- a**: A green cube. The red shape is a single vertical edge.
- b**: A pink 2x2 cube. The red shape is a single vertical edge.
- c**: A blue 3D shape made of four cubes (a 2x2 base with one cube on top of one corner). The red shape is a single vertical edge.
- d**: A yellow 3D shape made of five cubes (a 2x2 base with one cube on top of one corner). The red shape is a single vertical edge.
- e**: A purple 2x2 cube. The red shape is a single vertical edge.
- f**: An orange 3D shape made of five cubes (a 2x2 base with one cube on top of one corner). The red shape is a single vertical edge.
