

GETTING READY FOR CAMP

Room 9 were going on a school camp.

Mr Price

I want to know if each student wants to sleep in a tent, or a hut, what their food allergies are, and how many of their brothers and sisters are coming to the concert.

Tane

At camp we are all going to have to get up at 7 am. I wonder what time people usually get up at home.

Ava

I want to know how many of each type of tree are at the camp.

Charlie

I think more people want pizza for dinner than salad.

Which of these could be used to collect data to answer Mr Price, Tane, Charlie and Ava's questions?

a dot plot

b tally chart

c choice cards
