Adding by adding
a tidy number
and taking
some off

Adding by taking
some from one
number and giving
it to another
to make a tidy
number

Adding by
rounding one
number to a
hundreds number

Jumping forwards
or backwards
through a tidy
number

Subtracting by
subtracting a
tidy number
and adding
some back

Subtracting by
adding the same
to both numbers

Subtracting by
rounding one
number to a
hundreds number

Jumping by a
tidy number then
jumping back
