

WHICH WAY ROUND?

counters

$$2 \text{ lots of } 4 = 8$$

$$2 \times 4 = 8$$

=

= 8

$$4 \text{ lots of } 2 = 8$$

$$4 \times 2 = 8$$

Show using counters that

a $3 \text{ lots of } 4 = 4 \text{ lots of } 3$

b $5 \times 3 = 3 \times 5$

c $4 \times 6 = 6 \times 4$
