

3 FROG PONDS

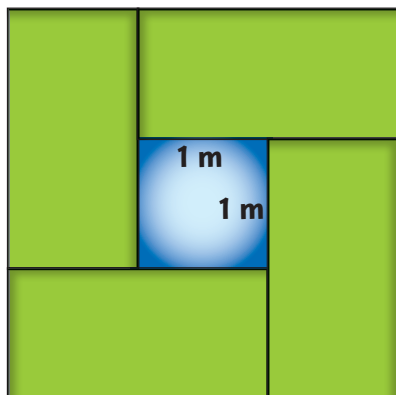

The Endangered Animal Centre had some panels that they fitted together to make a pond for rare frogs.

Ten frogs need a 1 m by 1 m space.

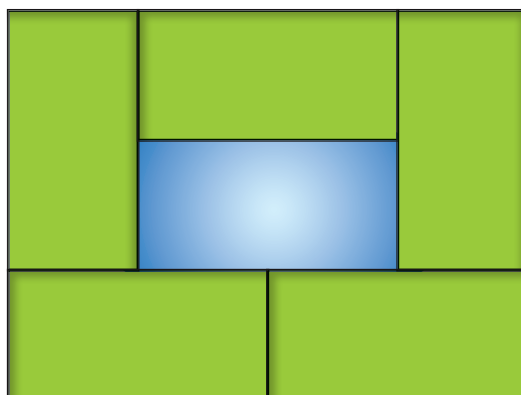

Harlequin frog

Four panels were fitted together to make a pen for ten frogs.

Five panels were fitted together to make a pen for twenty frogs.

Explore the minimum number of panels needed for 30, 40, 50, 60 ... 100 frogs.

Show your results in a creative way.

You could use blocks or squared paper to help.
