

7 MAKING MODELS

- 1 Design one of these.
You could use the 'Sketch up' or a similar computer program or materials.

- your house
- your room, including the furniture
- the classroom
- the school
- a scene from the school play
- a scene in a photograph or picture

- 2 a Make a model of a building by designing nets.
Fold the nets to make the 3-D shapes that fit together to make your building.
You might like to paint your model.

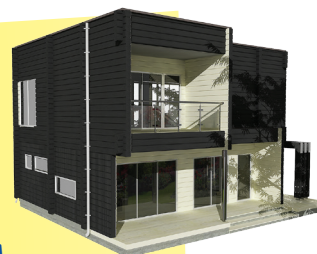

Draw the front, side and plan views of your model.
