

3 FLAGS

Design a flag that has four different colours.

Make one colour 25%, one colour 50%,
one colour 20% and one colour 5%.

Design a rectangular flag.
*(for example, using a grid 20 squares long
and 10 squares wide)*

You might like to decide which country your flag could
represent and discuss your choice of colours or the
features of your design.

CHAPTER 7

3 FLAGS

Design a flag that has four different colours.

Make one colour 25%, one colour 50%,
one colour 20% and one colour 5%.

Design a rectangular flag.
*(for example, using a grid 20 squares long
and 10 squares wide)*

You might like to decide which country your flag could
represent and discuss your choice of colours or the
features of your design.
