

3 Game

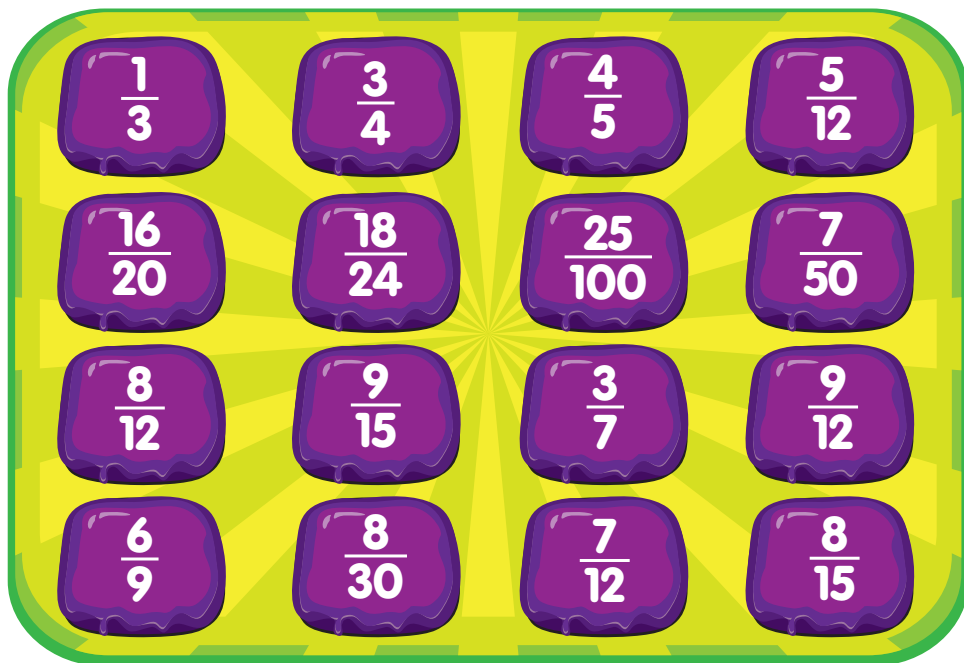

MAKE ME THE SAME

- 1 Take turns.
- 2 To claim a square you must name a fraction equivalent to the one in the square.
- 3 If you do this correctly put a counter on that square.
- 4 If your fraction is not equivalent, it is the next person's turn.
- 5 At the end of the game the person with the most counters on the board is the winner.

Check your answers and check each other's answers. If necessary use a fraction wall.
