

2 PAINTING POTS

Anya and Maia were painting their room.
They could only buy small pots of the colours they wanted.

- a How many small pots will fill the large pot?

Finish this.

Multiplying by 4 and then by 3 is the same
as multiplying by _____.

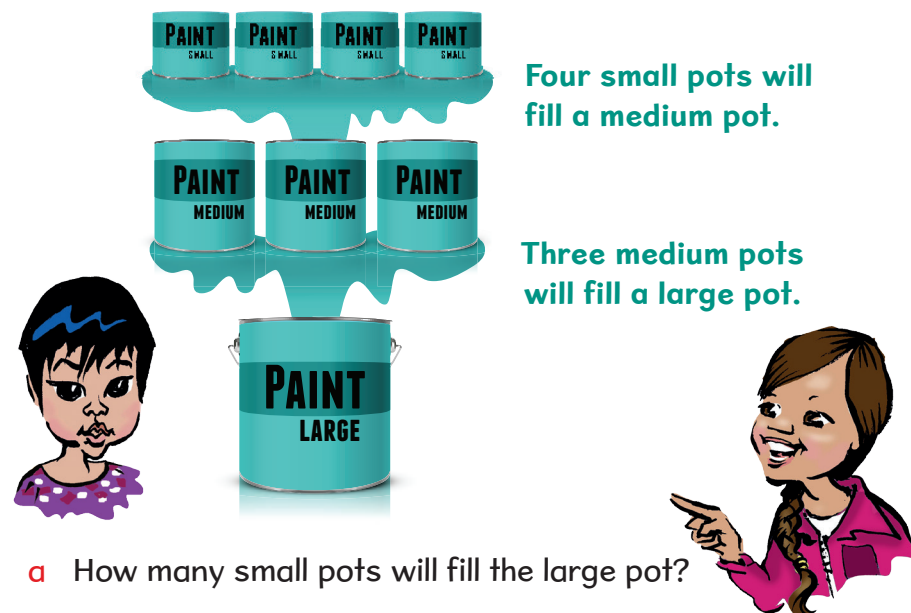

- c If two small pots will fill the medium pot and 6 medium pots will fill the large pot, how many small pots will fill the large pot?

- d Finish this.

Multiplying by 2 and then by 6 is the same
as multiplying by _____.
