

What do you want to know?

Sometimes it is a good idea to collect lots of different types of data all at once on cards like these. This data is called **multi-variate** data.

I wonder if people who like maths like playing particular types of sports?

Name	_____
Gender	_____
Distance from school (km)	_____
Hours of homework done this week	_____
Favourite TV character	_____
Favourite subject	_____
Favourite hobby	_____
Favourite sport to play	_____
Favourite sport to watch	_____

- How could Max use the cards to help him answer this question?
- Brainstorm some other things you could “wonder” about this data.
