

Game

- two dice, one with 0.1, 0.3, 0.4, 0.6, 0.8, 0.9 and the other with 0.2, 0.4, 0.7, 0.8, 0.9, 1

Fair or not fair?

- 1 Decide who is “Over 1” and who is “1 or under”.
- 2 Take turns to roll the two dice and add the two numbers together.
- 3 If the answer is **greater** than 1, the “Over 1” player takes a point. If the answer is **1 or less**, the “1 or under” player takes a point.
- 4 Stop when you have each had ten turns at rolling the dice.

- a Who won?
- b Ask your classmates which player in their pair won?
- c Do you think the game is fair? Explain.
