

BEING SENSIBLE WITH DECIMALS

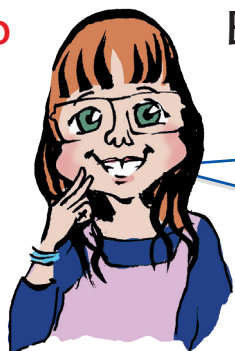

What would be a sensible amount to go in each gap?

- a Pascal paid \$448.80 for a new bike.

He paid nearly \$_____.

- b Emma had saved \$670.20.

I have saved about \$_____.

- c Nathan measured his room exactly and it was 4.39 m.

My room is about _____ m long.

- d A science experiment said that 4.8 mL of acid had to be used.
 This is nearly _____ mL.
