Problem 1

The wildlife sanctuary was being threatened by a nearby bush fire. There were 326 animals in danger. 187 of them were set free from their enclosures. The rest flew to safety. How many flew?

326	
187	?

Problem 2

The sanctuary raised \$6702 for the repairs. After the work was completed, there was \$397 left. How much did the repairs cost?

Don't worry! They all survived!
