

## WHAT NUMBER MIGHT I HAVE BEEN?

## Example

I am \$200 when I am rounded.  
What number might I have been?

It could have been \$176  
rounded to the nearest \$100.

It could have been \$204  
rounded to the nearest \$10.

What number might I have been before I was rounded?  
Find at least **two ways** the number could have been rounded.

- |                             |                             |
|-----------------------------|-----------------------------|
| 1 I am \$50 when rounded.   | 2 I am 300 mL when rounded. |
| 3 I am 460 km when rounded. | 4 I am 500 cm when rounded. |
| 5 I am 6000 g when rounded. | 6 I am 5450 m when rounded. |
