

WHICH ONES?

Put a line from each addition and subtraction to the strategy that you would use to work it out.

1 $9.4 - 6.9$

2 $11.7 - 6.5$

3 $14.7 - 8.8$

4 $24.6 - 14.3$

5 $12.4 - 6.5$

6 $16.9 - 7.8$

7

Semba, the lion, at Karonga Zoo was very greedy. Yesterday he took all the meat from the other lions and ate a total of 27.6 kg of meat. (Greedy Semba!) He was only meant to have 7.8 kg of meat. How much did he take from the other lions?
