

HOW LONG?

Give the answers to these as mixed numbers.

- a Max wants to cut a piece of wood 8 m long into 6 equal pieces for Benny's kennel floor.
How long, in metres, is each piece?

- b Jess wants to cut 5 m of fluffy cloth into 3 equal pieces to sew together to make Spice a nice new bed.
What is the longest length, in metres, she can make each piece of cloth?

- c Max wants to cut 8 m of plastic pipe into 5 equal pieces to make a maze for Norman.
What is the longest length, in metres, he can make each piece?
