

YOUR TURN

a

I made this pattern with ice-block sticks.
 It started like this and then I added
 four more each time.

How might Jess have continued
 her pattern?

b

I created a pattern using three
 different shapes that grows
 twice as big each time.

What might Max's pattern
 look like?

c

My pattern grows vertically (up)
 and horizontally (sideways).

What might Will's pattern
 look like?
