SHAPES AND TABLE FOR CHECK UP CONTINUED

PAGE 2 OF 3

	Number of equal angles	Number of equal sides	Number of pairs of parallel sides	Number of lines of symmetry	Rotational symmetry	Number of diagonals
Equilateral triangle						
Isosceles triangle						
Right-angled triangle						
Right-angled isosceles triangle						
Scalene triangle						
Square						
Rectangle						
Parallelogram						
Rhombus						
Kite						
Trapezium						
Isosceles trapezium						
Regular pentagon						
Regular hexagon						
Regular octagon
