

TILE SENTENCES

- 1 Arrange the tiles face down.
- 2 Take turns to turn over a tile so everyone can see it.
- 3 The first person to make up a correct number sentence which has the answer that is the same number that is on the tile, takes the tile. You must use at least two different operations in your sentence.
- 4 The winner is the person who has the most tiles once all of them have been taken.

Example

The tile turned over was 11.
I made the number
sentence $5 + 3 \times 2 = 11$

Challenge

Play the game but make number sentences with three different operations.
